

Defect ID	Defect Description
1	Launching OrangeHRM from google search results page causes the site to be open in the vietnamese language
2	The invalid file format error message for invalid photographs is appearing after the upload is complete

Steps to reproduce	Severity	Status
<p>1. Launch google.com and search for Orange HRM website</p> <p>2. click on the the OrangeHRM demo page <a href="http://opensource.demo.orangehrm.com/">http://opensource.demo.orangehrm.com/</a> from Google search results.</p> <p>Expected result: The OrangeHRM page should be displayed in English</p> <p>Actual Result: The site is displayed in vietnamese</p> <p>Note: The site goes back to being displayed in English, on refreshing the page.</p>	1-medium	Open
<p>1. launch OrangeHRM and login as a employee</p> <p>2. Click on the photograph displayed at the top left corner of the personal details page</p> <p>3. Click on "Choose a file" button and choose a ".exe" file that is less than 1 MB</p> <p>4. Click Upload</p> <p>Expected result: An error should be displayed that it is an invalid file format.</p> <p>Actual Result: The message of 'Invalid file type' should appear (as only JPG, GIF and PNG files supported) after the Upload button. But it uploads the complete exe file and then gives a message that the file type is invalid.</p>	1- Medium	Open
